The diagram is a complex network of interconnected nodes and lines. The nodes are labeled with text and numbers. The text labels include "ESG", "TCFD", "2020", "2025", "2030", "2050", "15%", "50%", and "1.5°C". The numbers include "6.4", "12", "13", "14", and "15". The connections are represented by lines of varying thickness and color (black, grey, and blue). Some lines are straight, while others are curved. The overall structure suggests a flow or relationship between these concepts over time and across different metrics.
